### ABOUT THE PHOTO SESSION:

Whether you schedule your photo session in the studio (\$300 fee) or on location (\$350 fee), you will get the chance to see some proofing of the digital images as I work with you during our appointment. Once we feel that the group family portrait has been achieved, and as long as there is enthusiasm for a continuation of the photo session, we can "shoot" any number of family combinations (as well as individual portraits) for the balance of the appointment, which is generally one hour in length.

### SERVICES INCLUDED in the fee:

After the photography session, you will receive by mail a DVD of the full resolution images - NOT watermarked - along with a print copy release to ensure that you have access to your images.

Next, I will select and email you several low res *watermarked enhanced files* with the intention of showing you the effect and value of my retouches to the images.

Also included in the photo session is one image file being fully retouched at no additional charge. After that first image, each subsequent individual image file that you ask to have retouched will cost \$10 each, and will be delivered via email.

You may also choose to order photographic prints from our studio as well. Any custom prints you may order from me automatically include the enhanced/retouched image file.

**Equine Photography - \$600** *(if a second session is necessary, the second session is \$400 add'l)*

- Customized photography session (2-3 hours) at your stable
- Photography extends from inside to outside environs, capturing that special relationship between you and your horse.
- The goal of this special portfolio of images is to portray the relationship and tell a story through details of imagery, which can then be displayed in an album, or in exceptionally handsome custom photographic prints (canvas, large format, montage).
